It seems there is one topic on everyone's mind this spring, the weather! I can't remember a longer stretch of cold, wet weather than what we have been experiencing so far this year. Here's hoping Mother Nature will cooperate and finally give us some seasonable weather.

The staff at Barnstable Golf has been very busy despite the bad weather preparing the courses and golf shops. Course conditions are getting better daily and the golf shops are loaded with merchandise. Both restaurants are fully open to satisfy your food and beverage needs.

Haven't decided to purchase your Annual Pass yet? Remember, being a Pass Holder has great privileges; two terrific, professionally managed 18-Hole golf courses to play, discounted cart fees, a wide variety of club sponsored events and leagues, a relaxing and enjoyable atmosphere and discounted reciprocal play at Cape Cod's other beautiful municipal golf courses. The golfing season is just getting under way, come by and sign up for your Annual Pass today!

Once again it's time for the annual "Best in Golf Awards" voting. For the last 5 years Olde Barnstable Fairgrounds has been voted by golfers throughout New England as a top 25 public golf course to play. Let's keep that streak going! Don't forget, Hyannis Golf Course has a reputation for having some of the finest putting greens on the Cape. Please take a moment to vote for your favorite course! A life jacket (or Personal Flotation Device - PFD) is the single most important piece of equipment on your boat and the most important consideration should be size. More than two-thirds of all boating fatalities are drowning incidents and 90% of drowning victims were not wearing a life jacket.

News from the Sealer of Weights and Measures-Jane Zulkiewicz

Barnstable Weights and Measures provide an important check and balance. We assure that the rights of the customer are protected from deliberate fraud or unintentional error, and further serve to protect the business owner. We do this in a variety of ways by testing the accuracy of many devices that are used for trade as determined by that device. Once the inspection proves the device is accurate a seal is adhered to the device ensuring it is functioning properly.

As the weather gets better, inspectors will be out testing and certifying the accuracy of motor fuel meters at gas stations, marinas, boat yards, airports, sand and gravel yards and at some oil companies who sell for trade to construction companies. Fuel is measured in cubic inches and does not give much room for error for compliance. Most tests are conducted in a five gallon test standard or prover. A reading of +/-6.0 cubic inches (in³) is the maximum for a meter that has been in service for over 60 days. This equates to 3.3 fl.oz. as the maximum the customer can receive or be shorted at a five gallon delivery. If this reading is not achieved at the time of inspection, the inspector will calibrate the meter to bring it close to zero which is optimal.

Inspectors have a check list they follow to complete the inspection. Those are: checking for a current motor fuel license, hose condition, proper petroleum stickers, leaks at fittings or meter, display clarity, prices on pumps and if available street signs, money values, security tape for tampering, skimmers, pump numbers and overall condition. Last year, 1,527 motor fuel meters were tested and certified as accurate with 117 calibrations made to optimal output efficiency.

Barnstable Weights and Measures conduct all their inspections with uniformity at all locations in the 10 towns we serve. If you have any questions or concerns regarding the performance of a commercial weighing or measuring device used for trade, bring it to the attention of the merchant. If the problem is not resolved, contact the local Weights & Measures office for advice and/or assistance. The Barnstable Weights & Measures jurisdiction includes; Barnstable, Bourne, Brewster, Chatham, Dennis, Harwich, Mashpee, Orleans, Sandwich and Yarmouth.

We can be contacted at: 508-862-4671 OR www.townofbarnstable.us/WeightsMeasures

SEVEN VILLAGES • ONE TOWN

ALL THINGS ARTS & CULTURE

THE 2018 HYARTS ARTIST SHANTIES AT HYANNIS HARBOR ARE OPEN!

New artists are featured EACH week, throughout the season. The shanties are located in two spots along Hyannis Harbor: at Bismore Park, Ocean Street and at the Harbor Overlook, along the Walkway-to-the-Sea at the corner of South and Ocean Street. The Bismore Park Shanties are named for the town's seven villages and each shanty exterior features past and present images of the villages. The Harbor Overlook shanties are named for Town of Barnstable beaches: Sandy Neck Beach, Craigville and Keyes.
