Old Business:

Comprehensive Dredge Plan Funding Sources – Harbormaster staff is aggressively pursuing ways to pay for maintenance and dredging of our waterways. Mr. Lawson presented to the Committee that Harbormaster staff will be recommending waterway user fees, and dingy storage fees. These will be fees and not a tax and are user specific. The Waterways Committee members that were present approved of the proposed fees and are interested in seeing fee amounts Harbormaster staff will be recommending.

New Business:

1. Mr. O'Connell who represented Millway Marina is requesting to change the usage of their commercial moorings to a rental transient mooring. Harbormaster staff believes a transient mooring is a change of use and would be considered a new mooring. Waterways Committee interprets that otherwise however, they direct the final decision to Harbormaster staff. With that being said Waterways Committee has no objections in allowing this change in usage. Harbormaster staff would recommend only one mooring be use as a transient rental mooring. Mr. Taylor communicated that Millway Marina would need to contact the Army Corps of Engineers to pursue usage permits if necessary. Once that information is obtained, Millay Marina they will work with the Harbormaster's office to talk about the usage change.

Harbor Master Report: Harbormaster's office is busy permitting the mooring renewals. Mr. Taylor is finishing up the Police Academy and will be graduating in February.
