Road Work on Main Street (Route 6A) and Mill Way in Barnstable Village

Construction of the Barnstable Village Improvements Project is scheduled to commence on September 3, 2019. Normal work hours will be from 7:00 AM to 3:30 PM, Monday through Friday.

Construction is scheduled to continue through May 2020. The Town's contractor for this project is Northern Construction Service.

The project objectives are to improve pedestrian access and overall traffic safety, rehabilitate aging infrastructure, and enhance the streetscape. The project scope includes new/improved sidewalks, landscaping, decorative street lighting in the village center, drainage, pavement, crosswalks, median islands, and traffic signals. The project area includes Main Street (Route 6A) from Rendezvous Lane to Mill Way, and Mill Way from Main Street to Barnstable Harbor Marina.

Construction drawings and other information are available on the project website at https://townofbarnstable.us/Departments/PublicWorks/Projects_and_Updates/Barnstable-Village-Streetscape-Project.asp. The Department of Public Works will provide weekly updates in the Barnstable eWeekly newsletter available online at <http://www.town.barnstable.ma.us/Departments/TownManager/Newsletters/newsletter-forward.asp>. Updates are also planned at Barnstable Village Association meetings.

Traffic will be maintained on these roads throughout construction. During active construction in the roadway, there will be lane closures with police details to direct traffic. Traffic delays may occur during lane closures. When required, detours will be posted and communicated with local businesses and residents.

As always, please slow down and use extreme caution when traveling through the road construction areas, and follow posted safety and detour signs.
