### **Road Work in Marstons Mills Village Center**

Town of Barnstable Department of Public Works with their contractor, Lawrence-Lynch Corp., is scheduled to reconstruct pavement on portions of Route 149, Main Street, and River Road beginning the week of March 25th, contingent upon weather and other factors. The work is expected to take about two weeks to complete.

The work hours will be between the hours of 7:00 AM and 7:00 PM, Monday through Friday.

The pavement reconstruction will involve a process called full-depth reclamation in which large equipment is used to pulverize and mix the existing asphalt and underlying gravel base, and then to grade and compact the resulting material to form a suitable base for the new pavement. After this is completed, it will be paved over with asphalt. Vehicles can drive on the compacted material until the asphalt is placed.

The paving operations are scheduled to be performed sequentially starting on Main Street from Route 149 to about 100 feet east of the school driveway; then on River Road from Route 149 to a point alongside the Cash Market; then on Route 149 from the overlook at Mill Pond to the intersection of Main Street & River Road; and finally on Route 149 from the intersection at Main Street to the intersection at Lovell's Lane.

Businesses and residences along the work zone will remain accessible to traffic throughout the work. Through-traffic will be detoured around active construction areas, and police will direct drivers headed to locations within the work area.

The equipment used to perform this work will be loud and will create vibrations that may be felt by residents and others in this area. The contractor is required to implement dust control measures.

Traffic during construction operations will be delayed and motorists are advised to seek alternate routes to avoid the construction work.

As always, please slow down and use extreme caution when traveling through the road construction areas and detour routes. Follow posted safety and detour signs as well as directions from police officers.
