

**NOTICE OF PUBLIC COMMENT HEARING**  
**PLEASE READ**

Vineyard Wind LLC (“Vineyard Wind” or “Company”) has filed three related petitions with the Energy Facilities Siting Board (“Siting Board”) and the Department of Public Utilities in connection with the Company’s proposal to construct and operate a new onshore and offshore electric transmission line, a new substation, and other electric equipment necessary to connect its planned offshore wind turbine array to the regional electric grid (together, “Project”). The offshore portion of the transmission line would pass through state waters in the towns of Barnstable, Edgartown, Mashpee, and Nantucket, Massachusetts and make landfall in Barnstable. The onshore portion of the transmission line and the new substation would be located entirely in the Town of Barnstable.

The Siting Board will be reviewing the onshore portion of the transmission line, and the offshore portion of the transmission line in state waters. The Siting Board will not be reviewing the planned offshore wind farm.

The attached legal notice describes the Company’s Primary Route for the transmission line, as well as alternative routes the Company has proposed. The notice also explains the opportunities for public participation in the review process. The attached legal notice is also available in Portuguese on the Siting Board’s website at [www.mass.gov/service-details/efsb-siting-calendar](http://www.mass.gov/service-details/efsb-siting-calendar) and on the Company’s website at <https://www.parkcitywind.com/permitting>. **Please read this notice carefully.**
